

During the course of this interview it was mentioned in passing by Lillian Squinas who comes from Quesnel that the member of East Indian decent working there does not enjoy positive relations with the five indian bands of the area. It was mention that our member is particularly rough when making arrests of young persons and that band officials are aware of this situation. No specific incident was mentioned nor could one be recalled when Ms Squinas was questioned in this regard. Note: This observation will be discussed in full with O.C. Prince George Sub/Division during the debriefing on 92-06-04
