Dear Mr. Walsh:

RE: SELF-DEFENSE AWARENESS PROGRAM

Receipt of your memorandum dated November 02, 1994 is acknowledged (copy attached).

I take exception to the student comment inferring that Constable Dhillon has been negligent in regard to the Self-Defense Awareness Program. Constable Dhillon has diligently applied himself to all programs which he has developed and programs in which he has agreed to participate.

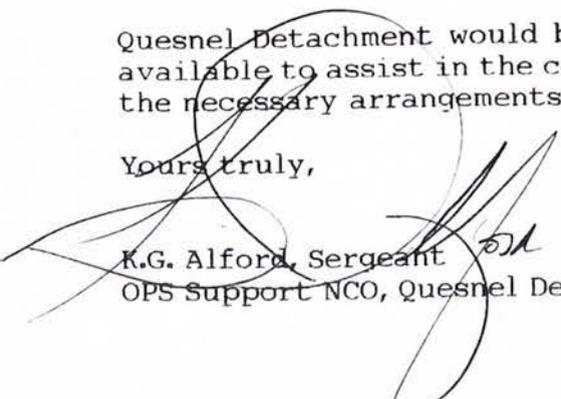

The descriptor for the Self-Defense Awareness Program, Continuing Education brochure (P.25) has stated that "RCMP Crime Prevention, Community Relations and Victim Services coordinating officers" will be conducting/participating in the program. No one has communicated with this office or discussed the feasibility of a Member participating in the program, prior to the publication of the brochure for the 1994/95 or prior to the publication of the brochure for 1993/94.

Obviously there has been an oversight/shortcoming in communication.

Regardless of the foregoing, this letter is to advise you that due to manpower limitations, we will be unable to assign an officer to the "duty" relevant to the Self-Defense Awareness Program.

Quesnel Detachment would be pleased to have copies of relevant videos made available to assist in the course. Please contact Constable B.S. Dhillon to make the necessary arrangements.

Yours truly,

  
 R.G. Alford, Sergeant  
 OPS Support NCO, Quesnel Detachment

C.W. Busson, Staff Sergeant  
 NCO i/c Quesnel Detachment

QUESNEL DETACHMENT

Dear Sergeant Busson:

Attached is the summary of evaluations and the Continuing Education Brochure (P.25) for our jointly sponsored Self-Defense Awareness program.

Please note the students' comments...

We would appreciate another officer being assigned to this "duty". Constable Dhillon has appeared at only one of the last four times this course was conducted. We had notification ahead of time once that he could not attend the course, so we made arrangements to go and pick up the video for showing to that class.

If it is impossible to assign R.C.M.P. staff for this function, we would appreciate having copies of the videos on hand to ensure our students benefit from the content. We and our instructor feel that the course is enhanced by the videos.

Thank you,

Peter Walsh  
Principal

### COMMENTS:

Need more time to learn technique and practice. Need more time . Great Instructor! A great course, great for everyone. should be taught in the school. Just marvelous Marc!!! Constable Dhillon didn't come with a video tape that we were expecting. Good teaching. I'd like this course to be once a week for 6 to 8 weeks or so. Actually all high school girls PE classes should have this course. More time needed and floor was too hard!! Really good course, I would like to do it on a regular basis. Good teacher - I would recommend Marc to anyone! I think this course should be in the school system. Wish the course was longer so that we could cover more material. Working one on one helps one to remember the material and actually know how to use. it. Require more time to be prepared for an attacker. Need more time, weekly sessions? More time needed - (maybe shorter sessions over longer time period)!
