Dear Sir;-

At the regular meeting of the Executive of the South Vancouver Conservative Association, I was instructed to write you commending you for the stand you have always taken against Orientals, and more particularly for the strenuous work you have done recently in connection with the Hindoo proposition.

From the Newspaper accounts of recent occurrences in connection with the Hindoos, it would appear that your efforts have not been in vain. The executive were unanimous in their opinion that a very great deal of credit was due to you in this connection.

Yours respectfully,

F. O. Hodgson
SECRETARY.
