

[Letter addressed to Hindi workers by International Woodworkers of America]

Bravo! Congratulations! Bravo!
Dear Hindi Workers!

Today the freedom-seekers of the entire world are fighting a war against the tyranny of fascism. Our collective community fight is for the freedom of all poor people. So that upon winning this war, people of the entire world can enjoy economic, political and religious freedom.

I.W.A. is a Panchayatilabour Union. According to our rules, hatred on the basis of Colour, Race and Ethnicity is strictly prohibited. We wish to ascertain the unionization of all the workers, so that the common poor workers may prosper.

"Equal pay for equal work" rule has been confirmed and now implemented. In Fraser and Youbou mills, the Hindi and Chinese workers have started getting the same wages as their White counter parts as per the I.W.A. rule. Without the Union, this victory would not have been possible. Union is Power!

For that reason, we the representatives of ten thousand members of I.W.A. Union, make a special request for you to join our Union, so that all workers can get better wages and working conditions. The fee to join the Union is one dollar and monthly payment is one and a half dollars. Over and above that, every member is requested to submit fifty cents extra for four months to pay the old debts of the Union. All this money is spent to bring together workers to join the Union.

Come and join the Union for our betterment!
