Private telegrams from the Viceroy to Lord Crewe

Re: reports the Canadian Government
has about the use of military force to
induce in the case of the Komagata Maru
I am of the opinion that this is a case which
very best effect in India is outside
being possible to achieve. I feel that
any force would greatly weaken the
position of Canada. I feel that
it should be considered in any way
possible. I am confident it is to further
the interests of Canada in the East
which is to supply them.
