

Newsclipping - Vancouver News-Advertiser: [Story on comments by W. D. Scott, Department of Immigration, made when he was in Toronto]

The Daily News-Advertiser Sat Nov 2, 1907 p. 1
Story on comment by W.D. Scott, Dept of
Immigration made when he was in Toronto.
Scott projected an immigration for 1907 of
280,000 compared with 215,000 for 1906. The
increase he said was largely from Great Britain
& the continent. There was a sharp falling off
of settlers from the U.S. On Japanese question,
he thought the trouble was over. Japanese
immigration would be restricted as a result of
Mr. Laframboise's mission to Japan. He
attenuated the trouble in Vancouver to labor
owners. Said that Canada was utterly unsuited
to country & that their immigration should be
curbed. Chinese labor was good & limited to
certain kinds of labor.
