

[Letter from [?], St. Joseph's Hospital to Mayo Singh]

ST. JOSEPH'S HOSPITAL,  
TORONTO, O.N.

Jan 27 1901.

Dear Mr. Mayo,

I was deeply grieved over reading the account of the sorrow you have sustained in the loss of your Mill by fire yesterday.

I had to assure you without delay that the State and my sympathy were with you and the people of Indian Caste in his long trial, which in its effects reaches out to so many who must find a time to be thrown out of their work. You feel particularly upon full knowledge of your loss, and no doubt you are already devising ways and means to come to their rescue. We send you the full that if we may be of any assistance in securing you that we will not hesitate to call upon us to do so.

Trusting to the future for you and looking forward to the day when you will be able to return to your home and family in good health. Please be dear to the people.

Very respectfully, Yours, [Signature]
